

FOUNDED IN TORONTO IN 1999

Value is created where others hesitate.

We believe enduring value is found in uncertainty, built through execution, and realized through time.

01

Value from uncertainty.

Opportunity often emerges when markets lack clarity and others step back.

02

Value from execution.

Ideas become valuable through discipline, operating knowledge and decisive action.

03

Value from time.

Patient ownership allows strong assets and businesses to reach their full potential.

WHO WE ARE

Since 1999

Our story began in Toronto.

Over more than two decades, Smart Investments has grown from its entrepreneurial roots into a Canadian private holding company. We invest our own capital, work alongside management teams and take a long-term approach to ownership.

Our businesses serve different customers and markets, but they are united by one philosophy: disciplined investment, active stewardship and enduring partnership.

OUR BUSINESSES

Two focused platforms.

Each platform has its own strategy, audience and operating team.

01

Commercial Real Estate

Investment, ownership and active management of income-producing properties.

02

Consumer Brands & Manufacturing

Long-term ownership and partnership across brands, retail and manufacturing.

“Uncertainty creates the opportunity.
Execution creates the value.
Time allows it to endure.”
